86 H/7,8,9**ASSESSMENT REPORT**TYPE OF WORK: *original*

GEOCHEMICAL

WORK DONE FOR: TEXAS STAR RESOURCES		DOCUMENT NO.: 083555
DATE PERFORMED:	JULY 1994 - JULY 1995	DATE FILED: OCT. 27, 1995
LOCATION - LAT.:	65°34'N	AREA: CONTWOYTO LAKE
- LONG.:	111°44'W	
CLAIM & TAG NO.:	JC 1-134 (F25352-485), JC 137-145 (F25488-496), JC 146-156 (F27245-255), JC 232-233 (F27331-332), JC 235-242 (F27334-F27341)	
VALUE (\$): \$ 274,200.00	②	
WORK DONE BY:	RODNEY W. ARNOLD	
REMARKS: Diamond exploration included the collection and analysis of 247 till samples down-ice from geophysical anomalies or up-ice of indicator mineral anomalies. Few indicator mineral grains were found; no dispersion trains have been defined.

re: Report Submitted - JC Claims
date: July 16, 1996
pages: 1, including this cover sheet.

On October 27, 1995, the above noted report was submitted for review, along with the Form 9's and fees.

When preparing your report to send to the District Geologist, Clarissa found the the total expenditures on the forms did not match the cost statement in the report. The forms total \$201,300.00, the cost statement totals \$274,200. She telephoned you, but has not received a reply.

I also note the following:

1. You have included the grouped claims on the listing attached to the Form 9 for the ungrouped claims; please remove them. The grouped claims must show cost distribution on their own forms.
2. Please do not list claims on your schedules on which you are filing no work. We have to go through the lists and draw lines through these claims. It also makes it difficult for us to audit the information on your schedule.
3. Any expenditure not being used towards more years, but going to excess credit, should be totalled in with the new work, not broken off separately. If you look at our form 9, the total amount of expenditures listed under the column "new work" should total the amount in the box labelled "Value of Work Performed". Please fix your schedule to show this. In the past, we have spent a lot of time fixing your forms for you, but it is your responsibility to submit these in a proper manner. For instance, if you are submitting 10642.00 worth of work on a claim, and only 10,330 is used to carry it forward for two years, you put "10,642.00" under new work, the new date under "next due date" and "312.00" under excess credit (10,642.00 - 10,330.00 = 312.00).

I am going to forward this report to the District Geologist for review, but ask that it not be approved until the cost statement balances to the Form 9's. If you have any questions, please give me a call.

From the desk of...

Cindy Peters
