ANALYSIS OF EVIDENCE—TABLE B—PHYSICAL CONDITIONS, RESERVES

RESERVE	No.	CHARACTER OF SOIL	ESTIMATED PROPORTION UTILIZED		CHIEF PRODUCTS	PROPORTION TIMBERED	GRADE OF TIMBER	STOCK, ETC.	REMARKS
			INDIANS	AGENT, ETC.					
Hustalen	1	Small portion cultivable along lake; balance rocky and wooded.	80 ac.	50 acres cleared and cultivated, with good irrigation facilities; 150 acres of high bench land, good but difficult of access, cleared but not cultivated; 1978 acres sparsely timbered sidehills affording fair pasturage.	Horses, hay and vegetables.	About 2000 ac.	Indians say merchantable. Agt.: Some merchantable.	Included in 4 and 4a.	Record of 100 ins. water.
Squaam	2	40 ac. cultivable if water for it can be obtained—"not very good."	"A little."	2 acres cultivated; 20 acres cleared and cultivable; 20 acres timbered; remainder fair hillside pasturage.	Vegetables	20 acres	Some merchantable cedar	Do	Record of 10 ins. water.
Toops	3	All 1st class, with light timber.	"All slashed and part cultivated."	All cleared; 80 acres cultivated, fairly good soil; 17 acres not yet stumped.	Do and hay	Very small.	Scrub	Do	Record of 10 ins. water.
Sahhahltkum	4) 4a)	*See Agt's estimate. Bottomland does not require irrigation; balance good land if water can be obtained for it; grazing for stock on the hillsides. Rocky land near village; back lands, side hill and mountain.	1100 ac., 700 more is cultivable if water can be got for it.	*All requires irrigation; 1500 acres cultivated, first class soil, with irrigation facilities; 300 acres cleared, good land, not yet cultivated; 100 acres level light soil, covered with scrub; 100 acres rich soil, heavily timbered; 1540 acres good sidehill pasturage.	Hay, oats, wheat, vegetables of all sorts, fruit, horses, etc.	200 acres	50% merchantable	237 horses, 52 cattle, 34 hogs, 300 poultry, farming implements, etc., for the Band.	Record of 100 ins. water from a creek, 250 ins. from Neskainlith Creek, and 50 ins. from small creek.
Stequmwhulpa	5	Steep and rocky.	None	None cultivable. Rocky side-hill bluff, sparsely timbered with scrub, no soil and practically valueless.	None	Generally timbered	Firewood	Do	
Switsemalpa	6	About half first class bottomland; balance rocky, with light timber, not even fit for pasturage. Indians: Soil sandy and gravelly. T. R. Riley: (as to this and No. 7)—These reserves consist of bottomlands and benches, the uplands being even more valuable for orchards than the bottomlands.	30 ac. and a small meadow.	30 acres; 25 acres cleared and not yet stumped; 645 acres first class bottomland, but heavily timbered with small forest growth; balance gravelly and sandy sidehills; this makes fair pasturage.	Hay and vegetables	50%	Beech and poplar, cordwood. Some merchantable poles	Work horses.	
Do	7	All first class land.	25 ac.; 75 ac. meadow; pasturage rented for support of widows and orphan.	20 acres cleared and cultivated; 10 acres cleared but not yet cultivated; 170 acres cleared but not yet stumped; 118 acres swamp hay meadows subject to overflow.	Hay and vegetables	Practically none.		4 horses.	
Cheetsum's Farm	1	Good land if water available for its irrigation.	20 ac.; as much more cultivable if water could be got.	50 acres excellent bottomland cultivated, with good irrigation system; 720 acres rocky and stony hillside with deep gulches and steep clay banks covered with sage brush—indifferent open range pasturage.	Hay, potatoes and other vegetables, also fruit	None		7 horses, 5 cattle.	Record of 30 ins. water from lower Minnaberiet Creek and 20 ins. from a spring.
105 Mile Post	2	Rich clay loam; more than half (possibly all) arable if water could be obtained, from the Bonaparte. Pasturage limited.	10 ac. — "Good land but no water for working it."	400 acres; 40 acres bottomlands on lower bench, cultivated with limited supply of water; 6 acres bench land now being brought under cultivation with a promise of sufficient irrigation; 1000 acres clear land cultivable at small cost if water for irrigation is available; 2731 acres fair open range pasturage. Recorded water sufficient to irrigate 150 to 400 acres.	Vegetables	None		47 horses	Record of 20 ins. water from a spring; 200 ins. from Bonaparte river and all the water from all other sources of water supply on the reserve.

RESERVE	No.	CHARACTER OF SOIL	ESTIMATED PROPORTION UTILIZED		CHIEF PRODUCTS	PROPORTION TIMBERED	GRADE OF TIMBER	STOCK, ETC.	REMARKS
			INDIANS	AGENT, ETC.					
McLean's Lake	3	"A rich and fertile plateau."—Agt. Smith.	Flooded	Rendered practically useless by flooding; 300 acres flooded land; 200 acres rich bottomland, lightly timbered and easily cleared; 503 acres open range pasturage.		None			25 ins. water recorded.
	4	Conditions similar to those of No. 2.		See No. 2					
Upper Hat Creek	1	"Not very good land and short of water."	5 ac. bottomland, with water from Hat Creek and 16 ac. with water from the hills.	Narrow strip of bottomland with plots of from 2 to 10 acres each cultivated, in all about 80 acres cultivated with fair water supply for irrigation; 300 acres bottomland covered with willow and scrub, cultivable if cleared and irrigated during the spring freshets; balance timbered (scrub) mountain land.	Hay and potatoes	Sidehills timbered.	Scrub	8 horses, 15 cattle.	*Water cannot be brought on to this land, which without water is non-cultivable; storage impossible; 250 ins. water recorded from streams, and all water from all sources of water supply within the reserve.
Lower Hat Creek	2	Non-cultivable without irrigation; stock pastured on adjacent vacant Crown land.	24 ac.	Similar to No. 1: 78 acres cultivated in narrow bottomlands strip; 200 acres good bottomland, timbered with scrub, cultivable if cleared and irrigated; 1900 acres rocky bluffs, sidehills and timbered with scrub—indifferent pasturage.	Do	Do	Do	24 horses.	Records of 100 ins. water from Seiltalkua Creek, 150 ins. from Hat Creek, and all the water from all other sources of water supply on reserve.
Bonaparte	3 } 3a)	Land arable if water could be got for it; bottomlands especially good if cleared. On 3a, a little hay land in the bottoms; the rest side hill.	4 ac.	20 acres cultivated without irrigation, could be irrigated from Bonaparte River; 250 acres same character soil, cultivable if cleared at considerable expense and irrigated from Bonaparte River; 1550 acres dry sidehills and stony lands—open range pasturage.	Hay	Willow bottoms.	Do	240 horses, 5 cattle	Record of 100 ins. water from Bonaparte River and 50 ins. from Hat Creek.
Loon Lake	4	Good land but high, bottomland arable.	None	Used exclusively as a fishing station.		Generally	Do		
Mauvais Rocher	5	Cultivable land, but without water.	None	Good land, but water not available except from Walhachin ditch; 65 acres good arable land without stones; balance fair pasturage.		None			
Hikium Lake	6	Fishing station.							Agent Smith has no information.
Kumcheen	1	About 15 ac. capable of cultivation with a better water supply.	Half ac. in garden, irrigated; this is all the land cultivable under present conditions as to water. Land on Nicola side washed away, leaving nothing but stones.*	Small gardens about 13/4 acres; irrigated from Nicola river; 20 acres poor and stony pasturage.	Vegetables and fruit	None		20 horses (Sten. rp.) 70 horses (Precis)	30 ins. water recorded from the Nicola River. *Agent says this statement should apply to No. 2.
Scoonkoon	2	A little good land; the rest rocky.	3 ac. cultivable if water could be got for it.	Indians about right; stony soil with some scrub timber—poor pasturage.	Do	Do			50 ins. water recorded from Skoonkoon Creek, and all the water from all other sources of water supply on the reserve.

ANALYSIS OF EVIDENCE—TABLE B—PHYSICAL CONDITIONS, RESERVES

RESERVE	No.	CHARACTER OF SOIL	ESTIMATED PROPORTION UTILIZED		CHIEF PRODUCTS	PROPORTION TIMBERED	GRADE OF TIMBER	STOCK, ETC.	REMARKS
			INDIANS	AGENT, ETC.					
Shawniken	3	Lower portion good land; upper portion stony, with some timber.	A few gardens; not very good land, as slide carried away the cultivable area; 4 ac. now cultivable with some water.	15 acres cultivated; 50 acres good pasturage, lightly timbered; remainder worthless.	Vegetables, grain and fruit	Do		50 ins. water recorded from Shawniken Creek at the falls, and all the water from all other sources of water supply on the reserve.	
Shawniken	4) 4a) 4b)	Non-arable; no water available; flat land.	None	30 acres cultivable if water is pumped across the Thompson river to it; balance fair sidehill pasturage.		Do		10 ins. water recorded from Thompson River.	
Chuchhriashin	5) 5a)	Arable land if water available.	5 ac. in each reserve. Alleged that one Curney takes water illegally.	(5) Small garden patches amounting to about 10 acres—cultivation difficult owing to insufficiency of water; 10 acres poor, stony and covered with scrub timber. (5a) 20 acres irrigated and cultivated, good soil and excellent crops.	Vegetables, grain and hay	Generally	Scrub	75 ins. water recorded from Nicoelton Creek, also water from 2 springs and all water from all other sources of water supply on the two reserves.	
Nicoelton	6	Splendid valley bottomland; 1500 ac. cultivable if water available.		Narrow strip of excellent bottomland including 200 acres of hay meadow; 800 acres good bottomland, cultivable if cleared and irrigated; 1008 acres fair timbered pasturage.	Potatoes and hay	Hay	Some merchantable, but difficult to log.	470 horses, 320 cattle. (probably for band)	Curnow took water under priority of record.
Klokowuck	7	A small piece good land; balance of reserve mountain.	3 ac. (no more water available).	15 acres; 4 acres cultivable if water be available by piping; 200 acres poor and stony sidehill range.	Hay, potatoes and fruit	On sidehills	Scrub	230 horses 60 cattle (?) 4 horses.	10 ins. water recorded from a small stream; 40 ins. from Klokowuck Creek, and all the water from all other sources of water supply on reserve.
Tsinkahtl	8) 8a)	Non-cultivable but useful for pasturage and as fishing station.		(8) Cultivable if water be available. (8a) 10 acres good land, cultivated; water insufficient; irrigation from a never-failing spring.		Do on No. 8 No. 8a—no timber	Do		No water available
Pemynoos	9	Excellent agricultural land well cultivated up to the limit of water available for irrigation, with good pasturage also.	70 ac. cultivated, which is all land fit for use; balance of land too hilly.	250 acres cultivated with irrigation; 800 acres cultivable open land with facilities for irrigation, will be utilized if better road facilities can be secured; balance fair open range pasturage—timbered.	Hay, cereals, fruits, potatoes and other vegetables.	35 to 40%	Firewood	38 work horses, 75 to 100 wild horses, 60 cattle, agricultural implements, etc.	100 ins. water recorded from Pemynoos; 200 ins. from Incaughkalk and 100 ins. from Pokheitsk Creek. These Indians have taken numerous prizes for their vegetable and fruit products, at the Provincial Exhibition in New Westminster and at the Chicago Exposition. They are greatly handicapped by absence of road facilities through which in 1912 they were unable to market their output.
Pokheitsk	10	As above	Included in above.	16 acres cultivated, with irrigation; 10 acres pasturage.	Do	Do	Do	Included in above.	Reserve not surveyed; 50 ins. water recorded from Pokheitsk Creek.
Spatsum	11) 11a)	Bottomlands arable if water available for irrigation; residue good pasturage.	10 ac. Indians intend to improve irrigation facilities and work more land.	(11) 150 acres cultivated with irrigation; 60 acres cleared and cultivable bottom and bench lands, requiring irrigation if water be available; 118 acres stony open range pasturage. (11a) 80 acres cultivable if water for irrigation be available; balance rough and poor pasturage.	Hay, vegetables, fruits and grain	Possibly 10 to 20%	Do	4 horses.	50 ins. water recorded from Pokheitsk Creek; 25 ins. from Spatsum Creek and all the water from all other sources of water supply on No. 11.
Chiltlux	12	Swamp lands cultivable.	None	None; 75 acres bottomland possibly cultivable around the lake; balance poor, sandy pasturage.	Swamp hay	Do	Do		Eight-Mile Creek runs through this reserve.

ANALYSIS OF EVIDENCE—TABLE B—PHYSICAL CONDITIONS, RESERVES

RESERVE	No.	CHARACTER OF SOIL	ESTIMATED PROPORTION UTILIZED		CHIEF PRODUCTS	PROPORTION TIMBERED	GRADE OF TIMBER	STOCK, ETC.	REMARKS
			INDIANS	AGENT, ETC.					
Quiltanton	13	Swamp hay lands and pasturage.	50 tons hay cut in a good season on 12 and 13.	None; 150 acres bottomland in brush; balance sandy, gravelly and timbered with Jack pine—poor pasturage.	Do	Do	Do	About 100 horses for Nos. 12 to 15; also approximately 50 cattle.	
Enquoeto	14	Do	None	None; 160 acres bottomland meadow; 400 acres sandy and gravelly pasturage.	Do	Do	Do		
Squetankilhats	15	Do	None	None; 220 acres bottomland meadow, 100 acres of which is open hay meadow; half acre cultivated; 300 acres fair pasturage.	Do	Do	Do		
Deadman's Creek		Dry land susceptible to cultivation if abundant water can be obtained. Of the total of 20134 ac., 4926 ac. have been leased to Smith Curtis for 999 years; of this two-thirds first class, one-third rocky. Of 1200 ac. best land, 200 ac. now cultivated by Indians' own irrigation facilities, 400 ac. more could be cultivated with 200 ins. water promised in Curtis' lease, leaving 600 ac. more to be provided for; 14000 ac. hilly; fairly good pasturage.	200 ac. Estimate 1100 ac. as maximum cultivable portion of reserve, the balance being hilly pasturage.	150 acres bottomlands cultivated with irrigation; 500 acres cultivable if cleared and irrigated; 4000 acres good benchlands, cultivable with construction of a higher level ditch, for which water is available; 8000 acres indifferent range pasturage; 2484 acres rocky mountain-side; 1200 acres (included in the Smith Curtis lease) cultivated with irrigation; 3800 acres indifferent pasturage.	Hay, grain, potatoes and other vegetables.	Comparatively little.	Firewood	300 horses, 40 (Indians say 25) cattle, a few sheep, poultry.	4926 ac. leased to Smith Curtis for 999 years at \$1,000 per year, the lessee also guaranteeing to give 200 ins. water from a high level ditch crossing the reserve; 500 ins. water recorded from Deadman's Creek; 25 ins. from Bates Creek; and all the water from all other sources of water supply on the reserve. Irrigation ditch constructed 1905 by Snohosh Water, Light & Power Co., Ltd.
Kamloops	1	Sandy dry land, requiring extensive irrigation where arable; about 15000 ac. pasturage. A considerable part rocky and mountainous.	1000 ac. inclusive of wild hay meadows; 1000 ac. more "pretty dry" but cultivable; 5000 ac. bottomland good if water for it could be obtained; considerable non-arable sandy land; two benches cultivable if water can be got.	Reserve generally consists of sandy, rocky and mountainous land, with fairly good grazing areas; the cultivable portions are irrigated and utilized to the extent of the available water; 1500 acres first class bottomland under close cultivation with fine irrigation system; 200 acres (in Skiddam Valley) first class land cultivated with irrigation; 1500 acres high level land (in Skiddam Valley) first class soil easily cultivable and a portion of which could be irrigated; 600 acres timbered (in Skiddam Valley); 300 acres bottomland on the South Thompson River, heavy clay but not within reach of the present irrigation system; 1000 acres good soil on the North Thompson river easily cultivable and to which irrigation facilities can be extended; 4000 acres rocky hillside of small value for pasturage or otherwise; 23558 acres first class range pasturage. (F. J. Fulton): Not one-half of this reserve properly utilized.	Oats, wheat, hay, potatoes, other vegetables, horses and cattle; 1913 output included 710 tons hay, 23 tons wheat, 105 tons oats, peas and beans, 80 tons carrots, 15 tons turnips, 30 tons other vegetables.	Practically none except on hills, possibly 10 or 15% of reserve land.	Major portion merchantable; balance firewood.	800 horses, 500 cattle (Indians' estimate) or 500 horses, 123 cattle, (Agent's estimate); also poultry, farm implements, etc.	500 ins. water recorded from St. Paul's Creek and all the water from all sources of water supply on the reserve.
Fishing Station	2	Indifferent quality.	None	Pasturage	None	None		See above	The object of this Reserve is not being attained, as the fish are not secured from this lake but from the creek into which the lake empties; the Indians now fish that stream by courtesy of the owners of lands contiguous to this Reserve.
Do	3	Do	Do	Pasturage	Do	Small	Tie timber and firewood	Do	

ANALYSIS OF EVIDENCE—TABLE B—PHYSICAL CONDITIONS, RESERVES

RESERVE	No.	CHARACTER OF SOIL	ESTIMATED PROPORTION UTILIZED		CHIEF PRODUCTS	PROPORTION TIMBERED	GRADE OF TIMBER	STOCK, ETC.	REMARKS
			INDIANS	AGENT, ETC.					
Gilead (T. R.)	4	First class land for cultivation if cleared.	Do	75 acres good bottomland, easily cleared and cultivable; 90 acres stony hillside and river bottoms subject to overflow.	Do	Greater part.	Birch cordwood	Do	50 ins. of water recorded from a stream above the reserve.
Fishing Station	5	Meadowland		20 acres cultivated with good irrigation facilities; 15 acres cleared but not yet stumped; 11 acres stony—fair timbered pasturage.	Hay and vegetables	25 to 30%	Firewood		
Hikium Lake	7								See Bonaparte Reserves.
Neskainlith No. 1	1	About one-third arable.		1500 acres cultivated with good irrigation facilities; 200 acres cleared and cultivable with improved water supply and facilities of distribution; 1460 acres fair pasturage. Cultivable land all fenced.	300 tons hay, 500 tons oats, wheat, peas, beans, cabbages, onions, turnips, melons, parsnips, berries and fruits, horses, cattle, farm implements, etc.	Small proportion.	Firewood	239 horses, 65 cattle, pigs, poultry, etc.	400 ins. water recorded from Neskainlith Creek.
Neskainlith No. 2	2	Cultivable bottomland, irrigation required or could be worked by dry farming methods.	Dry soil, its need being more water; also pasturage and wood.	60 acres cultivated without irrigation although water is available; 65 acres cleared and ready for cultivation; 200 acres good and cultivable, lightly timbered with firewood, can be irrigated; 2106 acres poor and sandy—indifferent pasturage.		About one-third.	Scrub	Included in above: Another estimate gives 500 horses, 100 cattle, pigs, poultry, etc. 40 horses, 5 or 6 cattle.	
Switsemalph	3	Bottomlands cultivable; hillsides dry, non-arable and timbered.	100 ac. hay meadow; 100 to 150 ac. more cleared and utilized.	80 acres first class land, cultivated; 80 acres first class bottomland cleared but not yet stumped; 80 acres good hay meadow; 633 acres good bottomland and bench, lightly timbered; 400 acres side-hill and rocky bluffs—fair pasturage; timber land if cleared good for grain or apples.	Hay, grain, vegetables and hogs.	75%	Merchantable and firewood; 3 M feet to the acre	17 horses, poultry.	
North Thompson	1	All good land if cleared and irrigated; water could be got for it, but the operation would be costly; 100 ac. do not need irrigation; 150 ac. rocky and non-arable; 1500 to 1800 ac. might be worked by dry farming methods.	Good land but dry and irrigation too costly for Indians without special assistance.	About 1000 acres of southern end first class bottomland with rich soil, 200 acres of which is cleared and under cultivation about 150 acres; 50 acres cleared land not under cultivation; 800 acres timbered; centre portion, 1000 acres, about 500 acres of which is stony land covered with scrub timber useful only for firewood—poor pasturage; 500 acres of swamp hay meadow overflowed by the river annually; northern portion of 1073 acres, 100 acres cultivated; 450 acres good hay meadow land; 500 acres stony land covered with scrub; this makes fair pasturage; Indians could use practically all if assisted with irrigation.	Hay, grain, vegetables horses, cattle.	About 25%	Mostly merchantable pine, also birch firewood.	Agt.: 135 horses, 47 cattle. Indians: 100 horses, 70 cattle, and poultry of all sorts.	Coal supposed to underlie this reserve and give it a special value; 50 ins. water recorded from Newkwkwatston and 50 ins. from Chukchuqualk Creek.
Nekalliston	2	Sand and gravel.	None	2 1/2 acres cleared bottomland; balance rocky sidehills.	None	None	None	None	5 ins. water recorded from Silpahan Creek. Coal supposed to underlie this reserve.

ANALYSIS OF EVIDENCE—TABLE B—PHYSICAL CONDITIONS, RESERVES

RESERVE	No.	CHARACTER OF SOIL	ESTIMATED PROPORTION UTILIZED		CHIEF PRODUCTS	PROPORTION TIMBERED	GRADE OF TIMBER	STOCK, ETC.	REMARKS
			INDIANS	AGENT, ETC.					
Barriere River	3	Do	Do	Indians will exchange.	Do	Small proportion.	Firewood	None	5 ins. water recorded from Barriere River.
Louis Creek	4	Good land.	All	Five acres cleared and cultivated.	Vegetables	None	None		5 ins. water recorded from Louis Creek.
Hay Meadow	1	Considerable good land.		1½ acres cleared meadowland	Hay	Small proportion.	Firewood		
	2	Good cultivated land on one side of the creek; on the other side benchland, cultivable if watered.		Small gardens; 15 acres irrigated and cultivated; 7 acres good cultivable bottomland lightly timbered; balance stony sidehill—fair pasturage.	Hay, wheat and potatoes	None			
Oregon Jack Creek	3	Cultivable patches of bottomland and some good bench.		60 acres cultivated, including 5 acres in orchard, all irrigated; 10 acres cleared bottomland cultivable if water for irrigation be available; balance indifferent open range pasturage.	Hay, vegetables and fruit	Do			
	5	Cultivated bottomlands, balance good if water could be got for it. Also good natural pasture; 10 ac. in orchard.	60 ac., with 10 ac. orchard additional.	150 acres cultivable with irrigation if water be available; balance indifferent open range pasturage—sidehills, clay slides and rocky bluffs.	Do and fruit	Do		14 horses, 1 cow, 1 calf.	Water can be got, but irrigation beyond the present means of the Indians.
	6	"Pretty good land."		40 acres irrigated and cultivated; balance good open range pasturage.	Hay, vegetables and fruit	Partially			
	7			Four acres cleared and formerly cultivated but now abandoned; balance good range pasturage with water for stock.					
Quaaout	1	About half first class land if cleared and irrigated; water easily obtainable; some good grazing on the higher lands.	202 ac.; "All good land if cleared." "Some level land but too dry."	40 acres cultivated; 125 acres cleared and a portion ready for the plough; 3000 acres good bottomland, good soil, sparsely timbered; 1050 acres indifferent pasturage; no irrigation but water available from Adams River.	Hay, grain, potatoes and other vegetables, apples.	About 25%	Some merchantable but mostly scrub.	20 horses, threshing and mowing machines	100 ins. water recorded from Adams River and 25 ins. from a small lake; also all water from all other sources of water supply within the reserve.
Chum Creek	2	All good land if cleared and developed.	100 ac. No irrigation	15 acres good soil, cultivated and capable of irrigation; 50 acres cleared but not stumped, good soil and capable of irrigation; 535 acres lightly timbered—indifferent pasturage.	Do	Very small	Firewood.		50 ins. water recorded from Jim's or Trail Creek and all other water from all other sources of water supply on the reserve.
Little Meadow	3	Mostly meadow, with a little timber—good land if cleared.		20 acres swamp hay meadow producing fair hay; 25 acres rich bottomland, 50% heavily timbered; 15 acres fair sidehill pasturage.	Hay	50%	Merchantable

KAMLOOPS AGENCY—ADDITIONAL LANDS APPLICATIONS

TRIBE OR BAND	LAND APPLIED FOR	PURPOSE	REFERENCE *	PER CAP. ACREAGE OF APPLICANT INDIANS	STATUS OF LAND DESIRED	DECISION OF COMMISSION
1. Neskainlith-Halaut Tribe	Indefinite area in unstated locality.	Pasturage	Pp. 19 to 24, 162 to 164, (Evidence of Wm. Perrish and Agent Smith).	39		Not entertained as not reasonably required.
2. Adams Lake Tribe, Sahbaltkum Band	Do	Do	Pp. 34 to 36, (Evidence of Adrian Narcisse).	39		Do
3. North Thompson and Canoe Lake Tribe	Indefinite area on Boulder Creek.	Do	Schedule of Lands applied for by Department of I. A.; Department of I. A. File No. 415, 572; Correspondence on R. C. File No. 538A. Pp. 58, 59, 60, 177, 178, 179, (Evidence of Johnnie Oxime and Agent Smith); also reports of Ashdown H. Green.	16	Apparently vacant and available. Specified 10/12/1913. Department claimed description inadequate; specially surveyed by A. H. Green; Again specified 4/2/1914 (1280 ac.); Noted.	Allowed: Six hundred and forty (640) acres, more or less, subject to survey, described as follows:—"Commencing at a point N. of Boulder Creek, North Thompson River, the N. E. corner of the Canadian Northern Railway Company's Timber Lot No. 13, and running thence N. eighty (80) chains, thence W. eighty (80) chains; thence S. eighty (80) chains; and thence E. eighty (80) chains, to the place of commencement."
4. Kamloops Tribe	Land of the Western Canadian Ranching Co., in No. 1 Reserve.	General	Pp. 63 to 76, 146 to 155, (Evidence of Sub-Chief Le Camp, John Leonard and Agent Smith).	117.25	Crown granted.	Not entertained.
5. Cook's Ferry Tribe	Indefinite area and location.	Range pasturage	Pp. 134, 195, 196, (Evidence of Chief John Titlanctzla and Agent Smith).	90		Do
6. Bonaparte	Indefinite area, not located.	General	Pp. 86, 184 to 187, (Evidence of Chief Bazille and Agent Smith).	32.66	A broad request for "more land."	Do
7. Douglas Lake	Do	Pasturage	Pp. 153 to 158 (Okanagan Agency Transcript). Statements of Chief Johnnie Chilliheetza and Indian Louis, also evidence of Agent Smith.	171.5		Not entertained as not reasonably required.
8. Lower Nicola Tribe Nicola-Mammeet, Joeyaska	Chief Tom Peter: Indefinite area, not located or described.	Pasturage	Precis: Pp. 90, 92, 93, (Evidence of Chief Tom Peter); 93, 94, (Evidence of Steve Michael); 94, 95 (Chief Saute); 94, 95, (Chief Saute); 108, (Evidence of Indian Jonah); 107, (Evidence of Chief Quilochest); 108, (Evidence of Jimmy Aeneas); P. 11, (Statement of Chief Nacoste and evidence of John Smith); Evidence of Agent Smith; Special Reports of Agent Smith on R. C. File No. 538A; report of Ashdown H. Green on R. C. File 538.	172		Do
9. Zoht, Hamilton Creek, Speous, Nooaitch, Shackan, Coldwater Bands	Chief Steve Michel (Hamilton Creek I. R. No. 6): Enlargement of No. 7 I. R., the line of the desired addition thereto to start at the south-east corner of Hamilton Creek I. R. No. 7, running east therefrom two miles, thence north three miles, thence west to the east Reserve line, thence following the Reserve line south to the place of commencement, the desired strip being about four miles in length.	Range	See above, also Agent Smith's special report on R. C. File No. 538A.	172	Covered in Agent Smith's special report on R. C. File No. 538A.	Not entertained.
10.	Chief Saute (Zoht 1 and 2, I. R's. Nos. 4 and 5): Enlargement of Zoht I. R's., the line of the desired addition following Zoht Creek to the top of the hill 2 miles in width, with the creek through the centre, a strip 3 miles long by 2 miles wide, north of the holding of Harry Matthews.	Do	Do (Also letter of Government Agent Rolfe of 25/2/1915, on R. C. File No. 538A).	172	Do Specified for reservation 30/7/15; noted by Department of Lands, 3/8/15.	Allowed: Nine hundred (900) acres, more or less, described as follows: "Commencing at the S. W. Corner of I. R. No. 5 (Shuter or Zoht Reserve), being Lot No. 716 as shown on plan; thence west to the eastern boundary of Lot No. 3366; thence following the eastern and northern boundaries of Lot No. 3366 to the eastern boundary of P. R. No. 1065; thence north to the S. E. corner of P. R. No. 1377; thence to the S. E. corner of P. R. No. 1374; thence north to the N. E. corner of P. R. No. 1374; thence east to a point directly north of the N. E. corner of said I. R. No. 5; thence south to the N. E. corner of the said I. R. No. 5; and thence west and south to the place of commencement, containing an area of nine hundred (900) acres, more or less, subject to the deduction therefrom of those portions of lots numbers nine hundred and seventy-two (972), nine hundred and seventy-three (973) and nine hundred and seventy-four (974), containing in the aggregate of such fractions of said lots an area of sixty-three (63) acres, more or less, within the above described limits, to be constituted an additional reserve for the use and purposes of the Indians of the Zoht Indian Reserves, of the Lower Nicola Tribe or Band." (Surveyed).
