**Author Biography:**

Dr. Arthur Darnley joined the Geological Survey of Canada in 1966 from the British Geological Survey as Head, Remote Sensing Section, Geophysics Division. In February 1971 he was appointed Division Chief, Exploration Geophysics and in 1972, this expanded to become the Resource Geophysics and Geochemistry Division. He remained as Director until March 1986 when the Earth Physics Branch and the Geological Survey of Canada were amalgamated and the Division was dissolved. He retired in 1995, and died in Ottawa on September 7, 2006.
